ZoneWire, an electro-industrial sound navigator, taps into an ecstatic inner realm where communication is the key to all that exists. Elemental PDX-based songwriting provides the quantum mechanics required by **ZoneWire** to leapfrog into the next subversive level of collective conscience awareness. Fellow musicians involved with touring/headlining acts seek to collaborate and share this experience, unleashing the collective muse. Now, TSR (Terminate & Stay Resonant), Pariathas and Tempest Wilde conspire upon new developments for **ZoneWire**.
